Biodiversity conservation commitments

1. Purpose

Biodiversity is the Earth's life network and the foundation of sustainable corporate development. The disappearance of every forest, every wetland, and every species poses an irreversible risk to humanity's future. As a responsible enterprise, Shanshan Technology is committed to integrating biodiversity conservation into its corporate strategy and daily operations, actively fulfilling ecological responsibilities, and working hand in hand with all parties to build a future where humans and nature coexist harmoniously.

2. Scope of Application

This policy is a public statement of intent applicable to Shanghai Shanshan New Materials Co., Ltd. and/or its global subsidiaries and affiliates (hereinafter collectively referred to as "Shanshan Technology"), and encourages upstream and downstream stakeholders to jointly adr do ˀ Ḛ i

Shanshan Technology

humanity's future. We will be driven by innovation and guided by responsibility, contributing our corporate strength to achieving global biodiversity goals.

4. Revise

This policy will be updated in due course or every three years. This commitment has been published on the official website of Shanshan Technology for all stakeholders to review. The final interpretation right of this policy belongs to the Ministry of Safety and Environmental Security.
